Agenda Item

10

REQUESTED COMMISSION ACTION:

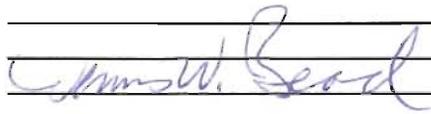

<u> </u> Consent	<u> </u> Ordinance	<u> </u> Resolution	<u> </u> Consideration/ Discussion	<u> X </u> Presentation
-----------------------	-------------------------	--------------------------	--	---------------------------

SHORT TITLE A Discussion of Multivista Construction Documentation Services

Summary of Purpose and Why:

Staff will make a brief presentation of Multivista products and services. Staff has retained Multivista to help document progress at various constructions sites (i.e., Public Library/Cultural Center, Pier Garage, etc.). The presentation will allow City Commission to learn about the products and services and be able to navigate dedicated webpages where photos are being stored. In the future, the photos can be used to help Staff find plumbing equipment hidden behind walls, electrical wiring, etc. Individual login and passcodes can be customized for members of the City Commission, if desirable.

MEMORANDUM

December 1, 2015

TO: City Commission

THRU: Dennis Beach, City Manager
Greg Harrison, Assistant City Manager
John Sfiropoulos, City Engineer

FROM: Horacio Danovich, CIP Manager

“Multivista is the world's leading visual construction documentation provider, offering photo, video and webcam services to construction professionals throughout North America.”

Staff has identified Multivista's products and services as excellent tools to keep track of progress during construction. Construction progress at sites such as the Public Library/Cultural Center (as recommended by Tammy Good), Fire Stations 11 and 103 and the Pier Parking Garage has been well documented and the photos will help Staff “piece construction back together.”

Staff wishes to make a quick demonstration to the City Commission to show Multivista's functionality and capabilities, some available web-based tools, mobile phone app, etc.

Upon completing this demonstration, members of the City Commission can be provided individual login and passcodes to navigate the dedicated webpages where photos are stored as well as to retrieve photos on individual cell phones.

A screen shot of Multivista's page with Pompano Beach projects is attached for your convenience (See Exhibit “A”).
