CITY OF POMPANO BEACH, FLORIDA

REQUEST FOR PROPOSALS

H-01-12

The City is seeking proposals from qualified firms to provide a feasibility study on the implementation and use of public safety cameras in the right-of-way for purposes of crime prevention.

The City will receive sealed proposals until 2:00 p.m. (local), November 16, 2011, in the City's Purchasing Office, 1190 N.E. 3rd Avenue, Building C, Pompano Beach, Florida, 33060. E-mailed or faxed proposals will not be acceptable.

1. Project Introduction

The City of Pompano Beach is a full service community that covers 25.8 square miles and has a permanent population of almost 100,000 year round residents. Additionally, the City has three miles of shoreline that can draw an additional 20,000 annual visitors, within and out of State.

The City's police services have been carried out by the Broward Sheriff's Office for the past eleven years. The personnel, including dispatching, work out of the City's public safety building. In 2010 there were 107,969 911 emergency calls and 230,621 non-emergency calls to the department.

Similar to the rest of the nation, the City's overall crime rate has declined over the past year. Even though crime has declined, the City is interested in looking into a public safety camera network that will act as a further crime deterrent in high crime areas and be able to assist with police investigations.

Finally, it is expected that the successful proposer will work in close partnership with the Sheriff's Office through all phases of the report.

2. Scope of Services

The first part of the study will look at part-I and part-II crime data for the past three years. Trends, locations, and other correlating information should be examined and mapped. Based on the analysis it should be determined what type of impact a public safety camera system would have on deterring crime.

The feasibility study should provide multiple options (three) for the proposed camera system. The options should range from low cost/low sophistication and intelligence to high cost/high sophistication. The study should determine if crime prevention goals are met or exceeded with each option, and it should provide an overall professional recommendation as to which option will be serve the city in terms of cost vs. benefits.

Additionally, the overall recommended system will need to present and discuss the following:

- 1) Architecture & Design
 - a. Proposed locations and required technology
 - b. Recommended Software
 - c. Recommended server and camera specifications
 - d. Estimated support and annual maintenance requirements
 - e. Specify cabling needs, if required.
 - f. Estimated data storage requirements
 - g. Depending upon the scope and sophistication, the proposed central monitoring location
- 2) Estimated start-up costs broken down by capital, operating, and personnel.
- 3) Estimated recurring costs for operation and maintenance.
- 4) Flexibility of the proposed system.
 - a. Ability to expand or contract the scope of the system.
 - b. Ability to change locations.

3. Small Business Enterprise Program

The Pompano Beach City Commission has established a voluntary Small Business Enterprise (SBE) Program to encourage and foster the participation of Small Business Enterprises in the central procurement activities of the City. The City of Pompano Beach is strongly committed to ensuring the participation of Small Business Enterprises (SBE's) as contractors and subcontractors for the procurement of goods and services. The definition of a SBE, for the purpose of the City's voluntary program, is taken from the State of Florida Statute 288.703(1).

As of the date of publication of this solicitation, a small business means an independently owned and operated business concern that employs 200 or fewer permanent full-time employees and that, together with its affiliates, has a net worth of not more than \$5 million or any firm based in Florida that has a Small Business Administration 8(a) certification. As applicable to sole proprietorships, the \$5 million net worth requirement shall include both personal and business investments.

The City encourages all firms to undertake good faith efforts to identify appropriate Small Business Enterprise partners. Sources of information on certified Small Business Enterprises include the Broward County Small Business Development Division, the State of Florida Office of Supplier Diversity, South Florida Water Management District, and other agencies throughout the State. The City includes links to these organizations from the City's website www.mypompanobeach.org. Please indicate in your response if your firm is a certified Small Business Enterprise.

Please note that, while no voluntary goals have been established for this solicitation, the City encourages small business participation in *all* of its procurements.

4. Local Business Program

On March 23, 2010, the City Commission approved a Resolution establishing a Local Business Program, a policy to increase the participation of City of Pompano Beach businesses in the City's procurement process.

You can view the list of City businesses that have a current Business Tax Receipt on the City's website, and locate local firms that are available to perform the work required by the bid specifications. The business information, sorted by business use classification, is posted on the webpage for the Business Tax Receipt Division: <http://mypompanobeach.org/directory/btr/index.html>

Please note that, while no voluntary goals have been established for this solicitation, the City encourages Local Business participation in *all* of its procurements.
