### POMPANO BEACH BOULEVARD STREETSCAPE IMPROVEMENTS

The purpose of the project is to revitalize and create an oceanfront pedestrian promenade, both vibrant and uniquely branded for local residents and citizens of Pompano Beach Florida. Key improvements will include: Pedestrian improvements along the East and West side of Pompano Beach Boulevard, within the ROW and City owned property; an exercise trail; passive park areas and possible playground upgrades; landscape beautification; pedestrian lighting and site furnishings; beachfront parking; and, pedestrian plazas directly east of the intersection of East Atlantic Boulevard and Pompano Beach Boulevard. The project will address necessary infrastructure improvements (i.e., drainage, water, sewer, and roadway improvements) to support the Pompano Pier Development, including possible re-alignment of Pompano Beach Boulevard and utility relocation.

### PROJECT LOCATION

## MAIN DESIGN OBJECTIVES

- Create pedestrian-friendly corridors to dine, shop and enjoy the beach.
- Revitalize beach community.
- Reconfigure roadways to maximize buildable footprint.
- Widen sidewalks and upgrade landscaping.
- Attract new businesses to support uses by residents and visitors (i.e., restaurants, beach related retail, etc.).
- Create connectivity to local businesses.
- Build partnerships with other government agencies (i.e., FDOT, etc.).
- Calming effect on roadways, making businesses noticeable to motorists.
  - Pedestrian Improvements
  - Landscape Beautification
  - Lighting and Site Furnishings
  - Parking Facilities
  - Beach Plaza
  - Dune Restoration
  - Exercise Trail

# DUNE RESTORATION PROJECT

This project entails the restoration and refurbishment of the dune within City's property at Pompano Beach Park. It consists of the restoration and stabilization of 2,800 linear feet of beach dune along the existing publicly-accessible municipal beach front. The project stabilization of the existing dune with native beach vegetation. In addition, the program includes the construction of publicly accessible dune over walks, including ADA compliant access. The project will be constructed with beach compatible material from an upland sand source. The restored dune will be 3.5' high and a width at the base of 30 feet. The new dune will provide storm protection, plant and animal habitat, and shading from beachfront lighting (which helps hatchling sea turtles). This project is intended to supplement the existing Federal beach renourishment program sponsored by Broward County which does not include a dune component. It is also a key component within current upland beach redevelopment plans proposed by the City.

#### BEACH PLAZA

The purpose of the project is to revitalize and create an oceanfront pedestrian promenade, both vibrant and uniquely branded for local residents and citizens of Pompano Beach Florida. Key improvements will include: Pedestrian improvements along the East and West side of Pompano Beach Boulevard, within the ROW and City owned property; an exercise trail; passive park areas and possible playground upgrades; landscape beautification; pedestrian lighting and site furnishings; beachfront parking; and, pedestrian plazas directly east of the intersection of East Atlantic Boulevard and Pompano Beach Boulevard. The project will address necessary infrastructure improvements (i.e., drainage, water, sewer, and roadway improvements) to support the Pompano Pier Development, including possible re-alignment of Pompano Beach Boulevard and utility relocation.
