Press Release Date: 4/21/20

## City of Pompano Beach Forms Economic Response Team for COVID-19

The City of Pompano Beach, along with its Economic Development Council, Community Redevelopment Agency and Chamber of Commerce have joined forces to provide support and recovery efforts for the business community of Pompano Beach.

The goal of the Economic Response Team is to ensure our business community recovers from the impacts of this pandemic and remain economically healthy in the long run. The virus will impact our current economic situation, but the City has already created action plans and strategies in order to be proactive in its economic recovery efforts.

In addition to forming the Economic Response Team, the City is doing a very thorough assessment of where our business community is most vulnerable. A Citywide poll is being conducted to gather data on the business community impacts. Additionally, we are doing an internal analysis of key business sectors important to our City.

Several important business resources have been posted on the City's website at [www.pompanobeachfl.gov](http://www.pompanobeachfl.gov) to assist businesses during this time. Pompano Beach businesses are urged to complete the Economic Response Business Survey which is also on the City's website to help determine and execute recovery strategies and initiatives.

The Economic Response Team will continue to prepare strategies to combat the negative impacts to our tax base to ensure we can continue to deliver services to our residents and the business community.
