

Screening for Ground-Mounted Mechanical Equipment

Per Code Section 155.5301.A.2.b, Ground-Mounted Mechanical Equipment shall be screened by **adjacent buildings, dense continuous hedges, or decorative walls or fences.**

- Screening with Fence:

Wood or PVC (Stockade, Board and Board, Solid Board, Shadow Box) or similar features that are solid and opaque (not see-through material).

- Screening with Hedge:

Shrubs for dense continuous hedges shall be at least 24 inch height & have a spread of 24 inches, and be spaced a maximum average of 24 inches on center per Code Section 155.5203.B.2.f, Shrubs and Hedges.

Notes:

1. The height of the vegetation, wall, or fence shall be at least six inches above the height of the mechanical equipment being screened.
2. Mechanical equipment shall be placed at least three (3) feet from the property line.
3. Proper clearance between screening and equipment shall be provided per a manufacturer specification.
